Founded in the 15th century, St Andrews is Scotland's first university and the third oldest in the English speaking world. The university is now one of Europe's most research intensive seats of learning – over a quarter of its turnover comes from research grants and contracts. Its international reputation for delivering high quality teaching and research and student satisfaction make it one of the most sought after destinations for prospective students from the UK, Europe and overseas. It is Scotland's most international university.

In Forschung und Lehre international ausgerichtet, gehört die Universität in Bonn bereits seit 1818 zu den bedeutendsten Hochschulen Deutschlands. Exzellenzcluster und Graduiertenschulen bestätigen den Erfolg der Universität, deren Vielfalt an Fächern die Chance zu vernetzter Zusammenarbeit bietet. Von zahlreichen Kooperationen weltweit profitieren WissenschaftlerInnen und Studierende aus dem In- und Ausland gleichermaßen.

Riche, plurielle et diverse, l'Université Toulouse - Jean Jaurès figure dans les meilleures universités françaises d'arts, lettres et langues et de sciences humaines et sociales, tant du point de vue de la formation que de la recherche. Elle est membre fondateur de l'Université Fédérale Toulouse Midi-Pyrénées. Créée en 1229, elle connaît au XVIème siècle, une grande renommée, puisqu'elle accueille des humanistes prestigieux. Elle est pluridisciplinaire puisqu'elle embrasse aussi de manière innovante le champ des sciences et des technologies, mais aussi du droit, de l'économie et de la gestion.

What is an eTandem?

A tandem is a language learning method whereby **two people with different first or native languages** meet regularly and mutually advance their understanding of the respectively foreign language. Based on this concept, the **eTandem** uses digital media, for example **e-mail, text chat or video call**, thus enabling learners to bridge long distances and to establish intercultural contacts worldwide.

Who can participate?

All **students** at the University of St Andrews, whose first or native language is English and who can demonstrate a language level of **at least A2/B1 in German**, are eligible to participate. Your **eTandem** partners will be students of the University of Bonn. Further information on the partner universities can be found on the back of the flyer.

Which languages are offered?

With our **eTandem** programme you can expand your **German** language skills. In return, you will support Bonn students in deepening their English language skills.

How does eTandem work?

If you would like to participate, please fill out the registration form on our homepage and send us a document showing your language abilities at the minimum required level (A2/B1) or above in German. Subsequently, we will look for a suitable **eTandem** partner.

Develop the learning process together! You can choose not only the location, the duration and the frequency of your meetings, but also the form in which you want to communicate. In the organization and design of your exchange, you can also benefit from our diverse resources.

How is the programme supported?

For questions and problems you may visit the DAAD lecturers' weekly surgery hours at St Andrews or contact **eTandem** office in Bonn via e-mail.

You are only 5 steps away from your eTandem...
